Who: Dr. David Broadway, triple-board certified plastic surgeon for bod:evolve

What: Facelifts, liposuction, breast augmentation, tummy tucks, laser resurfacing

Where: 9777 S. Yosemite Street, Suite 200, in Lone Tree

Clients: While Lone Tree is known as an affluent area, the majority of patients make less than \$90,000 per year. "It makes it a little easier for them to afford, but you'd be surprised. A significant number of our patients actually finance," he said.

Charitable work: Broadway has traveled with Operation Smile to China, Thailand, Colombia, the Philippines, Ecuador and Russia to perform surgery on children and adults with cleft palates. His most memorable moment was treating a mother and daughter who both had facial deformities. Broadway is now organizing a surgery donation day to benefit earthquake victims in Haiti.

Business steady: Despite the depressed economy, business is booming for Broadway's team of doctors. Since moving the practice from Centennial to Lone Tree in 2008, they have performed more than 1,200 surgeries. Roughly 100 operations are scheduled in March.
